

# Connecting Our Lives and Our Landscapes

In this free presentation, Sunil Patel, founder of Patchwork Urban Farms, will outline the current state of disconnection we have as a society from the land. He'll talk about what Patchwork is doing to help re-connect us with the land, the food, and each other. Information will be available about how people can plug in to the growing network..

Visit [smallisbeautiful.com](http://smallisbeautiful.com) to learn about other events around small-scale living.

*Sunil is farmer, permaculturalist, and farming thought-leader. He's collected many skills from growing 4-season biodynamic vegetables, to managing a grass-fed dairy herd, making artisanal raw milk cheese, baking for production in a commercial wood-fired oven, natural building, and helping maintain permaculture sites.*

**JOIN US in the cafe at Greenlife Grocery  
Thursday, October 29  
Meet 'n Greet @ 6:30 PM | Presentation + Q&A 7-8 PM**
